

OnRamp Program

The OnRamp program occurs during implementation to help smooth the plan changeover to Reference-Based Pricing with 6 Degrees Health. With a two-phased approach for provider outreach, we contact highly utilized providers and those who already have scheduled services, enabling 6 Degrees Health to proactively mitigate access issues and reduce potential disruption.

Phase 1: Highly Utilized Provider Outreach

What's needed:

- › Highly utilized provider list classified by number of visits and number of unique members.
- › An experience report that includes provider NPI's greatly assists in this effort.

How many providers are contacted:

- › 6 Degrees Health will evaluate the list of providers, our current experience, and the lead time prior to the effective date. This will help us determine the number of providers we contact.

How are updates provided:

- › All updates will be communicated during the onboarding process by the 6 Degrees Health Implementation Team.

Phase 2: Ongoing Care Outreach

How do we get the provider information:

- › Members will receive a HIPAA-secure, online link where they can submit all their provider information directly to 6 Degrees Health.

What services are eligible:

- › Any scheduled procedures or appointments
- › Expected maternity cases
- › Ongoing, specialized treatments or care
 - › Infusion therapy, cancer care, pediatric issues etc.

How are updates provided:

- › Members will be contacted directly by a 6 Degrees Health team member who will provide updates on the progress of their case.

It is important to note that while we are trying to proactively mitigate access issues, we cannot guarantee acceptance by all providers. We will assist you in finding alternative providers if a provider does not accept RBP.

If you have additional questions, please contact your Sales Account Manager, or reach out to accountmanagement@6degreeshealth.com.
